

**HUNTERS HEART**  
TAXIDERMISTRY

*Capturing the heart of hunting*

## Introduction

Welcome to Hunters Heart Taxidermy, where we serve hunting clients from across the world. Our team combines skilled craftsmanship, modern facilities, and a deep respect for Africa's wildlife heritage.

Every trophy entrusted to us is treated with care, precision, and attention to detail.

From raw trophy preparation to custom taxidermy and international shipping, we manage every step of the process to ensure your trophies arrive home safely and beautifully preserved.

When you trust Hunters Heart Taxidermy, you receive more than a service — you receive a professional team dedicated to preserving the memories of your hunt.

## Why Hunters Choose Hunters Heart Taxidermy

- Professional cleaning and treatment
- World-class tanning facilities
- Ready-to-mount hides
- Professional preservation

## Shipping

- Export documentation
- Freight forwarding coordination
- Global delivery by air or sea

When you need Africa alive, you need  
a Hunters Heart Taxidermy signature.

Our taxidermists focus on preserving the natural beauty and character of each animal. Forms are carefully adjusted and sculpted to match the exact anatomy of the skin received, ensuring natural posture, accurate muscle definition, and lifelike expression. Each mount undergoes strict quality control, with attention to muscle detail, hide texture, eye placement, and anatomical accuracy—resulting in a trophy that truly reflects the spirit of your hunt.

# COMBINATION FLOOR PEDESTAL MOUNTS

**HUNTERS HEART**  
TAXIDERM Y

Planning to add more species to your Combination Floor Pedestal Mount in the future? No problem. We can make structural provision for additional mounts while designing the pedestal, and temporarily incorporate habitat to ensure the display looks complete until the future trophies are added.

## COMBINATION FLOOR PEDESTAL MOUNTS

COMBINATION FLOOR PEDESTAL MOUNTS

A very strict Quality-Control Department gives attention to detail on muscle definition, hide texture, eye expression and veins, and ensures a pose to be anatomically correct.

FLOOR PEDESTAL MOUNTS

Would you like to incorporate the iconic shape of Africa into your mount?  
A 3D Wall Pedestal Mount is a striking way to showcase your trophy. Please ask  
your hunting outfitter to skin the animal as a full skin and avoid cutting the hide  
into smaller sections.

## 3 D WALL MOUNTS

**HUNTERS HEART**  
TAXIDERMY

Would you like to showcase more of your trophy's body than a traditional shoulder mount allows? A Half Mount adds depth and dimension, creating a striking and dynamic focal point in your trophy room.

# HALF MOUNTS

**HUNTERS HEART**

HALF MOUNTS

If you'd like to introduce some variety into a trophy room filled with traditional mounts, a Wall Pedestal Mount is the perfect choice. By emphasizing the shoulder and creating a striking 3D dimension, this mount brings your trophy back to life.

## SHOULDER MOUNTS

A Tanned Flat Skin is always a striking addition to a trophy room, but it doesn't have to be limited to the floor. Consider displaying it on the wall in an Africa-shaped wooden frame, which beautifully showcases skins with distinctive patterns such as giraffe and zebra.

## TANNED SKINS

## Dip & Pack Services

Hunters Heart Taxidermy provides professional Dip & Pack services for hunters who prefer to complete their taxidermy in their home country.

Our preparation process ensures that skins, horns, and skulls are:

- Cleaned and disinfected
- Prepared according to veterinary export regulations
- Properly packaged for international shipment

Well-prepared trophies ensure a smooth import process and the best possible results for your taxidermist at home.

## Dry Tanning

Hunters Heart Taxidermy offers professional in-house dry tanning to prepare hides for the highest quality taxidermy results.

This process stabilises and preserves the skin, maintaining its natural strength, flexibility, and integrity for mounting. Compared to standard Dip & Pack preparation, dry tanning provides a more reliable foundation for taxidermy and helps ensure the best possible finish.

By completing this process in-house, we maintain strict quality control and ensure your trophies are prepared to the highest standard.

## Global Shipping & Logistics

Hunters Heart Taxidermy prepares and crates trophies in-house and works with experienced freight agents and customs clearing specialists to export trophies worldwide.

Our logistics solution includes:

- Export documentation
- Veterinary permits
- Professional in-house crating
- Air or sea freight coordination
- Optional shipment insurance

Our goal is to make the export process as smooth and transparent as possible.

## International Trophy Import & Export

Hunters Heart Taxidermy operates a veterinary-approved high-risk facility, allowing us to safely receive and process trophies imported from various African hunting destinations.

We regularly handle trophies from South Africa, Namibia, Botswana, Zimbabwe, Zambia, Mozambique, Tanzania, Ethiopia, and Cameroon, and can accommodate imports from additional countries upon request. Our experienced team manages the required veterinary compliance, documentation, and logistics to ensure a smooth and professional import process.

# Start Your Trophy Journey With Us

Whether you choose Dip & Pack or full taxidermy services, Hunters Heart Taxidermy is ready to assist you. Contact our team to register your trophies or request additional information.

## How the Process Works

### 1 Register with Hunters Heart Taxidermy

Register online or contact our team before or during your hunt.

### 2 Trophy Collection

We arrange free collection of your trophies from your hunting outfitter anywhere in South Africa.

### 3 Preparation

Your trophies undergo professional preparation or taxidermy according to your instructions.

### 4 Shipping Arrangements

Once ready, we coordinate export documentation and shipping with our logistics partners.

### 5 Delivery

Your trophies are safely delivered to your destination.

A dedicated Hunters Heart team member will be assigned to manage your order from start to finish. You can expect:

- Personal communication
- Professional guidance throughout the process
- Assistance with documentation

Our team will assist you in selecting the most suitable mounting style for your trophies.

We ensure that your trophies move efficiently through every stage of preparation and export.
